

CASE STUDY

Julia Feazey

Team Leader - Supported Housing Services

Spire Homes

I joined Spire Homes in September 2002 as a part time mobile warden working 3 days a week on a rota basis covering days and night time call outs. I undertook the CIH Supported Housing Pathway and successfully passed in 2004.

Following 6 months on maternity leave I returned to the supported housing team as a scheme manager working 9 - 2 Monday to Friday and was based at a supported housing scheme in Woodford. I continued to undertake training courses specific to supported housing as well as organisational and legislatively required training.

Following the restructure of the supported housing service I applied for and was appointed as Team Leader for the Supported Housing Services in January 2007. I thoroughly enjoy my role and am lucky to now manage and work with a dedicated team. The supported housing service is continuously developing and I am looking forward to continuing to develop my role within in the service.
